

Ag Policy Brief #2014-03

February 26, 2014

by Keith H. Coble, Larry L. Falconer, Barry J. Barnett, and John M. Riley

:: Supplemental Coverage Option :: Information Sheet ::

- County-Level optional endorsement to stack on top of crop insurance policies
- "Tops-off" crop insurance
 - The policy will cover from an 14% county level loss down to where your individual crop insurance coverage level is set
- Mimics your underlying crop insurance product
 - If you carry a *Revenue Protection* policy then SCO will be revenue triggered
 - Price determined in same fashion as your policy (either with or without harvest price option)
 - If you carry a *Yield Protection* policy then SCO will be Yield triggered
 - Uses planting time price
- Policy premiums carry a 65% subsidy
- No payment limit
- Important to consider the relationship between your farm and the county-level yield and revenue
